

FACT SHEET · INDEPENDENT CONCEPT PROPOSAL BY NEXKOOMSON · NOVEMBER 2026

Ghana National Stadium

THE STAR AT THE HEART · GHANA NATIONAL SPORTS CITY

Status: Independent architectural concept by NEXKOOMSON. Not an approved government project. No site, funding, client or approval has been confirmed. Images, film and drawings are proposal stage material made with digital and AI assisted workflows: not final, and open to refinement. Full, state level visualisation would follow once work formally begins.

The proposal

An independent concept for a national stadium of about 80,000 seats at the centre of a connected Ghana National Sports City, ready for a government and investors to take up now.

The concept combines two symbols. A five point star opening is cut into the roof. A structural web inspired by Ananse surrounds it and extends in five arms that reach the ground, linking the stadium to the campus around it.

The Sports City

- National Football Academy and five training pitches
- Sports Science and Medical Centre; athlete residence
- Ghana Sports Museum and Black Star Plaza
- Indoor multisport arena
- Hotel, conference hall and sky bridge
- Retail promenade, transit hub (conceptual modes) and parking
- Solar canopies, roof solar glazing and microgrid (unquantified)

How it can start

A government takes it up, brings investors on board and chooses a site. Engineers and architects then turn the concept into detailed designs. NEXKOOMSON imagines, designs and visualises; it is not a construction company.

Concept figures (preliminary, P01)

CAPACITY	About 80,000; 80,874 counted in the P01 schedule
TIERS	Green lower 25,986 · Yellow middle 15,654 + 374 VVIP/VIP · Red upper 38,076
SKYBOXES	40 of 16 seats
MEDIA	376 desk positions
ACCESSIBILITY	144 wheelchair positions with companion seats
ROOF OPENING	Five point star, about 5,248 m²
CENTRAL DISPLAY	34 m diameter, 360 degrees
PITCH	105 × 68 m natural hybrid football pitch
DRAWINGS	P01 concept set, 14 A1 sheets, 3 Nov 2026. Not for construction.

Figures are concept stage and unverified. Structure, roof, fire and crowd safety, sightlines, athletics configuration, energy, cost and site all require independent specialist study.

Naming and credit

Use **Ghana National Stadium** and **Ghana National Sports City**. Credit: *Concept visualisation: NEXKOOMSON. Ghana National Stadium, an independent concept proposal.*
